

# Gaurav Awate

## Full Stack Web Developer

### What I know:

Proficient in both front-end and back-end development.

I possess expertise in them MEAN-MERN stack (MongoDB, Express.js, Angular.js, React.js, Node.js) and have a solid foundation in computer science fundamentals. Eager to leverage my skills to contribute meaningfully to the industry.

### Projects:

#### Dis-Talk-The Chat App [GitHub Link](#) (Nov 2023 - March 2024)

- Dis-Talk is a real-time Chat Application where multiple users can have a with each other.
- It consists of two applications: the client application, which runs on the user's web browser, and the server application, which runs on any hosting server on the network
- It shows the number of users online and the number of people joining or leaving the chat.
- Tech Used:** HTML, CSS, JavaScript, Angular.js, Socket.io, NodeJs, ExpressJS, etc.

#### E-commerce web App [GitHub Link](#) (Jan 2024 – Present)

- Comprehensive e-commerce web application with responsive design supporting dark and light themes.
- Features include Home Page, Product Listing Page with advanced filters, Cart/Wishlist Management, and robust Authentication.
- User address management, Profile Page, Order Summary, Checkout, Razorpay payment integration, pagination, and search debounce.
- Tech Used:** React JS, React Router, React Context API, useReducer, Ripple UI Component Library.

#### Sentiment Analysis for Social Media

(Feb 2024 – Present)

- Built a comprehensive application utilizing Natural Language Processing (NLP) to analyze sentiment in social media comments, categorizing them as positive or negative.
- Multi-Functional Approach:** Integrated image capture, comment posting, sentiment analysis, and face recognition to provide a holistic view of user-generated content.
- Broad Applicability:** Designed for organizations, political leaders, and businesses to monitor brand perception, product reviews, and public opinion on social media
- Tech Used:** React JS, React Router, React Context API, Component Library.

### Skills:

#### Technical Skills:

- C, C++, JavaScript
- Angular, React, Node.js, Express.js
- HTML, CSS, JQuery
- Bootstrap
- Data Structures & Algorithms, OOPs
- MySQL, MangoDB

#### Tools/Software:

- Postman
- Git & Github
- Word,Excel

### Certification/Internship:

- Diploma in **MEAN-MERN** held At FirstBit Solutions, Pune (06 Feb, 2023 - 30 Sep 2023)
- Oasis Infobyte**  
Web Development (01 Feb, 2023 - 01 Apr, 2023)
- CodSoft**  
Web Development (01 APR, 2024 - 31 JUN, 2024)
- Career Essentials in Generative AI by Microsoft and LinkedIn
- Employability Skill Devt. RPG Foundation by Zensar

### Objective:

- Learning new technologies
- Problem-solving
- Project management
- Building personal projects
- Attending tech conferences and workshops
- Effective Communicator
